I'm a passionate beginner programmer learning web development.

## About Me

Hi, I'm Laiba Ali, a Beginner Programmer. I'm a passionate beginner programmer learning web development.

I'm passionate about learning new technologies and building interesting projects. My journey in programming started recently, and I'm excited to continue growing my skills and knowledge in the field of web development.

When I'm not coding, you can find me reading tech blogs, watching coding tutorials, or experimenting with new programming languages and frameworks.

## SKILLS

HTML

CSS

JavaScript

React

Next.js

Git

## Education

Matriculation

Intermediate

## PROJECTS

### Bandage - E commerce website

Bandage – Where Style Meets Comfort. 🛍️✨ Built with ReactJS, Next.js, Sanity CMS, Node.js, and Tailwind CSS, our platform delivers affordable fashion, premium quality, and a seamless shopping experience. Shop smarter, dress better.

[bandage-marketplace.vercel.app](https://bandage-marketplace.vercel.app)

### MovieLand React

MovieLand – Your Ultimate Destination for Movies, Reviews & Trailers -make this website using REACT and using APIs
